In conjunction with the release of *The World Of Nat King Cole*, the Nat King Cole Estate and Capitol / EMI Music Catalog Marketing have partnered with the VH1 Save The Music Foundation. Donations in Cole's name have been made to the nonprofit organization, dedicated to improving the quality of education in America's public schools by restoring music programs in cities across the country, and raising awareness about the importance of music participation for our nation's youth.

In 1942, Nat King Cole was one of the first artists to sign with Capitol Records. Cole recorded over 150 charting singles on the Pop, R&B and Country charts, a staggering record that remains unbroken by any other artist ever signed to the label, which led to Capitol becoming known as "The House That Nat Built."

At the time of his death in 1965, it was reported that Capitol Records had sold over nine million Nat King Cole records.

Cole's catalog continues to sell in excess of one million albums per year around the world.
