The Return of the MadFace Invasion 2007.

Hip Hop group Onyx is a hardcore hip hop / rap group consisting of well known hip hop notables Sticky Fingaz, Fredro Starr and Sonee Seeza-also known as the Afficial Nasty Niggaz or Da MadFace Invasion.

It took this hip hop group only one month to go Platinum with their first album "Bacdafucup", which was released in 1993.

Today, we are in 2007 and Onyx is still alive, with their newest project, Yung Onyx.

Onyx is ready to hit the score again; with their unique hip hop style and hardcore rap on your face.

But that's not all; they got a clothing line coming out this year. The 'Madface' clothing line will consist of jeans, hoodies, T-shirts, hats and accessories in lines for men, women and children.

It's true that the fans have been waiting for so long and their last album was not really what they had been waiting for, from a hip hop group like Onyx.

But the front man, Sticky Fingaz, apologized for the whole let down and the group promise to the old fans and the new generation to bring back the real hardcore rap they've been missing so much.

As hip hop notable Fredro Starr said himself, "History Repeats It Self".
