Look out for Keesha Rowe's project coming soon. We are in talks of having an EP before Christmas produced by: Bank and Doe (binky mack and dondoe) and others.

In other news, looks like Colin Powell has endorsed Obama and I think that is a good thang. Pat Buchanan called it a tribal thing. I am assuming he meant a black man endorsing a black man, but I am sure there was a lot of Mexicans who endorsed Viragosa and white men who have endorsed George Bush. So why would ol Pat say something like that? Tribal? Well, just ignore ignorance. Time for a change anyway, schmell that? 1 guy for sure who is a racist so let me state his name right here for ya. Rush Limbaugh. Rush mentioned that he is going to look into other whites that Colin Powell had voted for in the past that was far left liberals. Why is it any of his business? I am gonna have Rush's email address next week so we can all email him and tell him about himself. His new contract is for \$400 million (highest paid journalist) so he is trying to dodge the tax...oh boy!

Looks like regular underground hip hoip rappers are in the same boat as some of the veteran hip hop rappers. They are all looking for that hit. Frustrating I know, but can you imagine a hip hop rapper having a regular job at foot locker or Subway. With the economy slump and no jobs, you may be seeing that soon. We all gotta stay legally hustlin. Get creative and come up with new ideals so we can be in the new billionaire bracket which is now at 104 billion on the Fortune 500 list. Anything under that amount did not make it this year. Wow, if I was at 103 billion, I would not be on the list. HmMMM....

Well, I am out. Bout to go to Starbucks and then head to the book store and look for Hip Hop weekly. I am gonna change it to Hip Hop Monthly though. They be missin in action on the book stands. Some magazines are about gonna need a bail out from the government because everytime you read anything in the magazine, you already had that info from www.thuglifearmy.com or somewhere else online a week ago. That's why you wanna stay tuned at
