The Education Through Hip Hop Entertainment Resources in association with RA RA Entertainment, Heated Magazine, New City Outreach Ministries International, Branch Recordings, BB Media Global Group & Diva Day DesignZ, presents the Chicago Community Hip-Hop Summit.

Since the new millennium began our communities have been plagued with crime, violence, murder, racial tension, negative police/community relations, and numerous ongoing protest in the form of boycotts, marches and even riots. This once "most livable" city is now caught in the gloomy, problem filled shadows of metropolis like New York, Detroit, Oakland and Newark. Poverty, increasing high school drop out rates, a shrinking job market, homelessness, the crack cocaine epidemic, and the plague of HIV & AIDS are devastating our communities. Our city and future are in grave danger because our children are more at risk today than ever before.

The Summit will implement three programs to help others learn about HIP-HOP. We will implement three interactive programs, E.T.H2.E.R. (Education Through Hip-Hop Entertainment Resources), H.I.P.-H.O.P. (Health Is Power-Healing Our Peers), and J.C.T.V (Jr. CinCity Teen Voices) (Cincity = Community Inner City).

The Summit, through the implementation of the three programs, will provide valuable information, references and resources on HIP-HOP culture and music to everyone that attends. One goal of the Summit is to create a high level of positive energy that will elevate our political & social awareness, identify means of economic growth & development, and foster a better climate for improved race relations based on mutual respect, truth, justice and equality.

Sunday July 10th, 2005, will be geared towards Gospel led by Apostle Byron E. Burke. Possible special guest speaker: Pastor Fredrick K.C. Price Jr. of Crenshaw Christian Center (www.faithdome.org)
