We are very pleased to announce that we have joined up with Chicano Radio (CRN) as a new 'Affiliate Partner' and rely on them to be our 'Official Radio' for the visitors to ThugLifeArmy.com & TLA-PROnline.com.

Gaining the reputation for being a hip-hop, rap and urban news web site that is far from the mainstream and associating our self with worthwhile activities that deal with hip-hop culture, we felt this is a great thing for all involved.

Chicano Radio or CRN Live is one of the best stations we have encountered for internet radio.

With today's wide and diverse hip-hop culture, no other radio station comes close to representing the real hip-hop culture than does CRN.

With this unique 'Partnership' with CRN, we will provide an up to the minute news feed for the stations site and they in turn will provide the best of classic and current hip-hop, rap, R&B and classic Latino music for us; as they have been doing for the community of hip-hop for 10 years.

There are different Studios and different sounds and a variety of programs at CRN. So if you are feeling in an underground rap and hip-hop mood you will find it. If Motown or R&B is what your feeling at the moment, that can be found also. The diversity of the music and the artists themselves make the station a very unique welcomed asset.

This is a station that is truly about the music. Give them a listen and you will understand why we have aligned ourselves with them and what they are doing for the hip-hop community.

Thru this partnership we will also be able to provide an outlet for your music. If you are an artist who would like to get air play hit up either Frank@crnlive.com or administrator@thuglifearmy.com and let us know about yourself.
