The CEO of Death Row Records Suge Knight made an appearance on CBS's the Late Late Show on Friday November 19th. Suge had come to clear up rumors about him being involved in or being the cause of the attack on Dr. Dre at this years Vibe Awards.

In that interview on CBS, Suge made mention that Scarface was going to be on Death Row. This has lead to rumors that Scarface is indeed signed to Death Row. We are waiting for official word of all this, but it seems that it is a done deal; and the Houston rapper is the newest member of the family.

Suge also made mention of Petey Pablo, and Kurupts album 'Against the Grain' while on CBS's Late Late Show.
